\*Bank fees and commissions may apply

### Payment Policy:

The enrollment fee serves as a deposit and guarantees your child's place in our school, for next academic year, pending tuition payment due by August 10.

For returning students, signed re-enrollment form and deposit are due by March 31.

For students enrolled after the school year has started, tuition and fees must be paid within five working days.

All the meals are included in the tuition. The school covers the cost of all instructional materials, art equipment and project supplies.

The Annual Activity Fee includes school's field trips, special projects, yearbook and birthday celebration.

Payments may be made by bank transfer, credit card and/or cash

Our tuition fee is an annual amount, paid as one payment. However, the school may allow for tuition to be paid in two installments, in this case a commission of up to 2% will be applied to each term.

Tuition does not vary according to the number of school days in any particular month; all school holidays have been factored into the annual tuition. **We do not pro-rate any portion of the tuition fee and do not offer refunds due to missed classes, illness, vacation, school holiday, or personal schedule conflicts.**

### Cancellation and Refund Policy:

Withdrawal from the school is permitted up to 10 days before the start of the term with a 75% refund. After that, no refunds will be processed. All requests for cancellation and refunds must be submitted in writing and emailed to [info@chips.md](mailto:info@chips.md).
